

EUROPEANWORKSHOP

ON NEONATOLOGY

Heraklion, Crete, Greece

2-4 October 2025 Hotel Galaxy

www.ewon-2025crete.org

Preliminary Programme

Welcome to Heraklion!

Dear colleagues,

It is a great pleasure to welcome you to the 32nd European Workshop on Neonatology (EWoN), taking place from 2–4 October 2025 in the historic city of Heraklion, Crete.

For more than 30 years, EWoN has provided a unique platform for the exchange of scientific ideas and expertise in a collegial and stimulating atmosphere across Europe and neighbouring countries. This year's workshop continues this tradition, bringing together distinguished speakers and participants to foster dialogue and collaboration across virtually all areas of neonatology.

We are confident that the scientific programme will inspire productive discussions, strengthen professional networks, and contribute to advancing knowledge and practice in our field.

Crete, with its breathtaking landscapes and rich Minoan heritage, provides an exceptional backdrop for the workshop. Heraklion, the island's capital, offers both the opportunity to engage in rigorous scientific exchange and to experience the culture and hospitality of this remarkable region.

We wish you a rewarding and memorable meeting.

Workshop Chairs

Eleftheria Hatzidaki

Associate Professor of Pediatrics - Neonatology Head of the Department of Neonatology & NICU, University General Hospital of Heraklion, School of Medicine, Heraklion, Crete, Greece

Gabriel Dimitriou

Professor in Paediatrics and Neonatology,
Chairman of the Department of Paediatrics, NICU & PICU,
University of Patras Medical School,
Patras, Greece.

Programme

EWoN 2025, 2 – 4 October, Heraklion

Wednesday

Welcome to Heraklion!

Welcome Dinner at a Mediterranean Restaurant

20:00 – Meeting at the hotel lobby: Walk to Restaurant **Spora**

Thursday

Thursday 2 October 2025 – Session 1 – Perinatal Physiology & Endocrinology

Aminoglycoside target concentrations in neonates: peak, trough, or area under the curve?
peak, trough, or area under the curve?
Breastmilk melatonin and neurodevelopmental
outcomes in preterm infants at nine months' corrected
age. Evidence from adjusted regression models in the
ProMote Study
Newborn bone health assessment using REMS: Initial
validation of a novel approach
Iodine status of Turkish pregnant women and their
offspring: A national cross-sectional survey
Delayed cord clamping for preterm deliveries<32 GA
using 'LifeStart' trolley
Neonatal autonomic and adrenocorticotropic features
in newborns of mothers with gestational diabetes

10:45–11:00 Coffee break

Thursday 2 October 2025 – Session 2 – Brain, Pain & Organ Injury

Chairs: Jacob Aranda, Vineta Fellman		
11:00–11:15	Frances Callaghan	Relationship between arginine/ADMA ratio and mortality in postoperative neonates
11:15–11:30	Antonia Charitou	Cardiac dysfunction in neonates of diabetic mothers due to marked hypertrophy of their right ventricle
11:30–11:45	André Graça	Neuroprotection and repair in perinatal brain injury
11:45–12:00	Verena Lehnerer	Early life serum NfL and GFAP as brain damage biomarker in perinatal asphyxia
12:00–12:15	Nicoletta Iacovidou	The effect of neonatal asphyxia on the ovarian histology of newborn piglets: an experimental study
12:15–12:30	Britt Nakstad	Extreme heat Impacts on neonatal health and wellbeing
12.30-12.45	Breda Hayes	The placenta in HIE

12:45–13:45 Lunch break

Thursday 2 October 2025 – Session 3 – Outcomes & Follow-Up

Chairs: Serafina Perrone, Sven Wellmann		
13:45-14:00	Ursula Kiechl-Kohlendorfer	Transition to home: improving outcomes of very preterm infants and families – a systematic review
14:00–14:15	Stanislava Hitrova-Nikolova	Neonatal outcome in newborns of mothers with diabetes mellitus
14:15–14:30	Cornelia Wiechers	Premature infants with bronchopulmonary dysplasia: neurocognitive development at age 2 years and body composition at primary school age

Visit to Archaeological Site of Knossos & Dinner

15:45 – Meeting at the hotel lobby, guided tour of the **Archaeological Site of Knossos Palace**, the most famous Minoan palace, and one of Europe's most significant Bronze Age sites

19:00 – Dinner at Restaurant En Plo

Friday

Friday 3 October 2025 – Session 4 – Respiratory Care & Lung Development

Chairs: Egbert Herting, Kosmas Sarafidis		
09:00-09:15	Jacob Aranda	Caffeine and/or Ibuprofen effects on biomarkers of alveolarization and microvascular maturation in neonatal rat lung
09:15-09:30	Egbert Herting	Lung function following premature birth until the age of 12 years
09:30-09:45	Matteo Bruschettini	The JACK Study: Justified Administration of Caffeine for Preterm Kids
09:45–10:00	Theodoros Dassios	Prone positioning and respiratory function in ventilated newborn infants
10:00–10:15	Nelly Jekova	Outcome of newborns with non-immune fetal hydrops - clinical challenges
10:15–10:30	Lars Mense	Surfactant administration during endotracheal CPAP – in between INSURE and LISA?

10:30–10:45 Coffee break

Friday 3 October 2025 – Session 5 – Respiratory Interventions & Monitoring

Chairs: Gabriel Dimitriou, Esin Koç		
10:45-11:00	Kosmas Sarafidis	A case–control study of gastric fluid metabolomics to predict the need for surfactant therapy in very preterm infants
11:00–11:15	Michel Holger	Pulse wave transit time measurement in neonates for estimation of cardiac output changes and non-invasive haemodynamic monitoring
11:15–11:30	Tomasz Szczapa	Application of NIRS monitoring in the neonate - what do we know in 2025?
11:30–11:45	Martin Wald	Recruitment manoeuvre on CPAP, is this new and is it actually possible
11:45–12:00	Colin Morgan	Evaluating complex clinical interventions: using bioelectrical impedance to support fluid management in sick term and preterm infants
12:00–12:15	Sally Ogden	Using simulation to influence design of a new departmental major haemorrhage policy

12:15–13:30 Lunch break

Friday 3 October 2025 – Session 6 – Infection, Sepsis & Immunity

Chairs: David Corcoran, Heili Varendi		
13:30–13:45	Christos Tsakalidis	Early markers of neonatal sepsis
13:45–14:00	Madalena Tuna	Newborn screening for congenital CMV – A new approach
14:00–14:15	Gabriel Dimitriou	From the brink of collapse to survival: A critically ill neonate with overwhelming multisystem dysregulation – unravelling the unknown
14:15–14:30	Olga Romantsik	Devices to improve success of peripheral vascular catheterization in newborn infants – a systematic review and meta-analysis

Archaeological Museum of Heraklion & Dinner

17:30 – Departure from the lobby of the Galaxy Hotel. The museum is within walking distance of the conference hotel

18:00 – Meeting at the Museum entrance. Guided tour of the **Archaeological Museum of Heraklion**, one of Greece's most important museums, housing artefacts from the Minoan civilisation

19:30 – A gentle stroll in the city centre

20:00 - Dinner at Restaurant Pemptos Ntore

Saturday

Saturday 4 October 2025 – Session 7 – Screening, Nutrition & Preventive Care

Chairs: Eleftheria Hatzidaki, Mehmet Vural		
09:00-09:15	David Corcoran	Reliability of point of care capillary bilirubin measurement for neonatal hyperbilirubinemia risk stratification
09:15-09:30	Esin Koç	ROP in Larger and More Mature Preterm Infants: Incidence, risk factors and outcome
09:30-09:45	Livia Ognean	Vitamin D status at birth in very preterm infants in Romania
09:45–10:00	Zeynep Alp Ünkar	Early Prediction of ROP in Preterm Infants: Diagnostic Utility of 6PTC as a Biomarker of Oxidative Stress
10:00-10:15	Heili Varendi	Enteral feeding of very preterm infants – results from the national registry of preterm infants in Estonia

10:15–10:45 Coffee break

Saturday 4 October 2025 – Session 8 – Environment, Ethics & Emerging Concepts

Chairs: Karel Allegaert, Ursula Kiechl-Kohlendorfer		
10:45-11:00	Vineta Fellman	Neonatal auditory event-related potentials do not
		predict long-term outcome in very preterm infants
11:00-11:15	Thalia Papadouri	Provision of health care services in the neonatal
		intensive care unit – Archbishop Makarios III Hospital,
		Nicosia, Cyprus
11:15-11:30	Sven Wellmann	Erythropoiesis-stimulating agents in very preterm
		infants for improved neurodevelopmental outcome,
		state-of-the-art of latest clinical research
11:30-11:45	Helmut Küster	Comparison of outcome using three different SOPs to
		treat Neonatal Abstinence Syndrome
11:45-12:00	Eleftheria Hatzidaki	Closing Remarks/Farewell
	Gabriel Dimitriou	

Participants

Allegaert, Karel Professor of Paediatrics, Neonatology and Clinical Pharmacology, Belgium Aranda, Jacob Professor of Paediatrics and Ophthalmology, Director of Neonatology, New

York, USA

Beretta, Virginia Doctoral Researcher, Neonatology Unit, University Hospital of Parma, Italy

Bruschettini, Matteo Consultant in Neonatology, Lund University, Sweden

Callaghan, Frances Consultant in Neonatology, UK

Charitou, Antonia Consultant Neonatologist, Rea Hospital, Athens, Greece

Corcoran, David Consultant Neonatologist, Edinburgh, UK

Cuttini, Marina Consultant Neonatologist, Maternal & Child Health, Rome, Italy **Dassios, Theodoros** Neonatologist and Honorary Professor of Neonatology, Greece

Dimitriou, Gabriel Professor of Paediatrics and Neonatology, Department of Paediatrics, NICU &

PICU, University of Patras Medical School, Patras, Greece.

Fellman, Vineta Professor Emerita of Paediatrics and Neonatology, Department of Clinical

Sciences, Lund University, Sweden

Graça, André Associate Professor of Paediatrics, Faculty of Medicine, University of Lisbon,

Portugal

Hatzidaki, Eleftheria Associate Professor of Pediatrics, Department of Neonatology & NICU,

University General Hospital of Heraklion, Crete, Greece

Hayes, Breda Consultant in Neonatology, Dublin, Ireland

Professor of Paediatrics and Director, University Children's Hospital, Lübeck, Herting, Egbert
